Onboarding Step 1

Monadic DNA Explorer uses 1m+ scientifically vetted genetic traits to help you understand your health, diet and exercise.

We do not store or look at your DNA or sell it to third parties.

Let's Go

Skip this tour and do not show it again

I am just a researcher who wants to explore the GWAS Catalog

Onboarding Step 2

Let's get you ready to use Explorer. Pick the option which best applies to you:

I have done a test with 23andMe, AncestryDNA or similar and I have my data >>

I have done a DNA test but I need help getting my data >>

I would like to get my DNA sequenced privately and anonymously >>

Sequenced but no data

Sequenced but no data

Click on your DNA testing provider for instructions on how to download a copy of your DNA data

[23andMe] [Ancestry DNA]

While you're waiting for your data, let's give you a taste of what you will be able to do with your data.

Show Me

Has data

Not sequenced

Have data Step 1

Upload your DNA data to get started!

Your data never leaves your device. Explorer stores it in the IndexedDB of your browser.

We not do not transmit your data to our servers or snoop on it in any way.

my_23andme_data.txt Upload

100% Loaded..

Your data has been uploaded and is now ready for analysis!

Analyze My Data >>

Sequenced but no data

We are working on an app called Batcher for letting you privately and anonymously get your DNA sequenced.

Use the link below to sign up and get notified as soon as the service is ready.

Testing Sign Up Form

While you're waiting to get sequenced, let's give you a taste of what you will be able to do with your data.

Show Me

Have data Step 2

Let's analyze your data fully locally in your browser.

Downloading one million scientifically vetted traits from the GWAS Catalog..

100% Downloaded

Storing the GWAS Catalog data in your browser's IndexedDB..

100% Stored

Running your data against the GWAS Catalog to find all matches..

100% Processed

We found 103,417 matched traits. Let's look at some traits!

Show Me Some Traits >>

Use Sample Data

Downloading and uploading some sample data to help you explore this product!

Your data never leaves your device. Explorer stores it in the IndexedDB of your browser.

We not do not transmit your data to our servers or snoop on it in any way.

100% Fetched..

100% Loaded..

The test data has been uploaded and is now ready for analysis!

Analyze My Data >>

Have data Step 3

Here are five randomly selected high signal traits from your data.

Using the Explore tab in at app, you can filter through and explore all 103,417 of your results!

[[Table with five randomly selected high signal traits.
The user gets buttons to see their result and to get an LLM analysis of the result.
The LLM Analysis should pop up the same modal as the Explore tab.]]

Let's take it up a notch. Let's use secure LLM analysis to answer questions about your whole dataset.

Run Some LLM Analysis >>

Have data Step 4

Here are five randomly selected high signal traits from your data.

Using the Explore tab in at app, you can filter through and explore all 103,417 of your results!

[[Table with five randomly selected high signal traits.
The user gets buttons to see their result and to get an LLM analysis of the result.
The LLM Analysis should pop up the same modal as the Explore tab.]]

Let's take it up a notch. Let's use secure LLM analysis to answer questions about your whole dataset.

Run Some LLM Analysis >>

Have data Step 3

Here is an advance look at our premium LLM Chat feature.

Ask any question about your genetics and the app will use your most relevant results to get an answer from a secure, private LLM.

How is my sleep profile?

<< 2 of 5 >>

The LLM Chat feature is available for only $4.99 a month.

Personalize your answers by entering your demographics, history, reports documents in the app.

Nobody apart from you can ever look at your chat logs or personalization information.

You're now ready to start using the app to unlock your diet, lifestyle and health insights!

Let's Go!
